

## Banana King

### KEY POINTS

- Rebuilds tired and worn soils through remineralisation
- Builds critical levels of many trace elements
- Increases soil carbon levels for energy, water and nutrient holding capacity
- Increases the ability for plants & turf to resist pest and disease attack
- Greater biological activity in the soil promotes availability of both target and other tied-up nutrients in the soil

**\*Improved soil health reduces input costs through efficiency.**

### ACTIVATED RESPONSE

Mineral Technology and Soluble Fertilisers successfully combined with complex organic ameliorants. This blend has been delicately handled to ensure the full benefit of a nutrition catalyst to enhance ion transfer and their enhancement of cell wall permeability.

### TYPICAL ANALYSIS (w/w)

Nitrogen	11.004 %	Copper	252 .44 mg /kg
Phosphorus	2.043 %	Zinc	337 .614 mg /kg
Potassium	20.503%	Manganese	382 .850 mg /kg
Sulphur	9.204 %	Iron	711 .156 mg /kg
Carbon	4.717 %	Boron	143.470mg/kg
Calcium	4.946 %	Molybdenum	0.0066mg/kg
Magnesium	0.173 %	Cobalt	2.82mg/kg
		Silica	102.836mg/kg

### PRODUCT SPECIFICATIONS

Granular Grade 2-4mm  
Energy 200-500 p.mag

### QUANTITY SIZES (PER 1000KG)

Loose Bulk • 1t Bulk Bags • 25kg Bags • 20kg Bags

Manufactured by FertPro Manufacturing Pty Ltd  
66 Chum Street, New Chum, QLD 4303  
07 3282 0761

## Banana King

### APPLICATION GUIDE

Application rates should be determined by soil analysis and applied in conjunction with a balanced nutrition program. The following rates are generalized for irrigated and dry land cropping, for intense horticulture these rates can be increased. Contact a qualified Fertpro consultant for assistance.

Best applied broadcast or direct drill, using horticultural spinner spreaders, belt spreaders or small walk behind applicators.

Application rates:  
For lawns 2 – 3 Kg per 100/M2  
Water in after application

Compatibility: Check with a Fertpro qualified consultant prior to blending this product with other fertilisers.

Note: This blend can be used to uniquely formulate a fertiliser to suit a specific need in any crop.

### DISCLAIMER

FertPro Manufacturing Pty Ltd provides this information & application document as a guide and reference point for fertiliser application qualified professionals. This document needs to be supported by the means of soil tests and or leaf tests for a qualified professional to decide on application rate. FertPro Manufacturing P/L accept no responsibility or liability for the validity of testing, application of fertilizer or crop response as an outcome from information provided. It is the responsibility of each farming operation to keep our environment safe and clean for all generations.
