KEY POINTS

- Rebuilds tired and worn soils through remineralisation
- Builds critical levels of many trace elements
- Increases soil carbon levels for energy, water and nutrient holding capacity
- Increases the ability for Plants & turf to resist pest and disease attack
- Greater biological activity in the soil promotes availability of both target and other tied-up nutrients in the soil

Improved Soil Health reduces input costs through efficiency.

ACTIVATED RESPONSE

Trace elements from the Sea that are chelated with natural organic humates to provide the building blocks from which soil and plant can thrive. Sea minerals are present as nanoparticles, delicately handled to ensure the organism, be it microbial or plant can function according to its maximum genetic potential. Though only necessary in small amounts, trace elements are essential for plants to complete their normal life cycles.

TYPICAL ANALYSIS (w/v)

Nitrogen	0.06 %	Zinc	30mg/L
Phosphorous	0.03 %	Manganese	38 mg/L
Potassium	1.80 %	Iron	<50mg/L
Sulphur	0.09 %	Boron	12mg/L
Carbon	2.48 %	Molybdenum	1.5mg/L
Calcium	0.08 %	Cobalt	0.4mg/L
Magnesium	0.09 %	Silicon	<50mg/L
Copper	4.8mg/L		

PRODUCT SPECIFICATIONS

Form: Liquid

pH: 4.8

Specific Gravity: 1.05

Application Rates: Dilution in water

1 – 100

5-7L/Ha

Manufactured by FertPro Manufacturing Pty Ltd

APPLICATION GUIDE

AGITATE BEFORE USE

Application Rates should be determined by soil analysis and applied in conjunction with a balanced nutrition program. The following rates are generalized for irrigated and dry land cropping, for intense horticulture these rates can be increased. **Contact a FertPro Qualified Consultant for assistance.**

Sea-Trace is best applied direct into soil at the seed zone or direct boom spray application, irrigation lines or horticultural spray applicators.

Compatibility: Check with Fertpro Qualified Consultant prior to blending this product with other fertilizer.

Note; This Blend can be used to uniquely formulate a fertiliser to suit a specific need in any crop.

FertPro Manufacturing Pty Ltd provides this information & application document as a guide and reference point for fertiliser application Qualified Professionals. This document needs to be supported by the means of soil tests and or leaf tests for a Qualified Professional to decide on application rate. FertPro Manufacturing P/L accept no responsibility or liability for the validity of testing, application of fertilizer or crop response as an outcome from information provided. It is the responsibility of each farming operation to keep our environment safe and clean for all generations. Use qualified advice, stringent planning and ownership of your decision before acting on any information provided.
